

Decorate your own battery box

Turn an old shoebox into your very own custom battery box with a fun One Big Bin label with directions on how to dispose of them when you are ready for Curbside Pickup.

What you'll need: Wrapping paper Shoe Box Glue stick

Instructions:

1. Cut enough wrapping paper to cover the box. You'll need 2x the length of the box + enough to cover the sides.

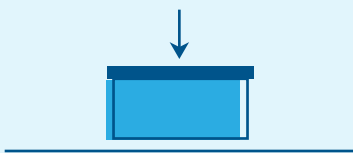

2. Draw the outlines of the box on the backside of the wrapping paper.

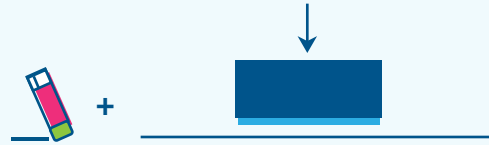

3. Spread glue all over the bottom of the box. Fully cover to prevent airholes.

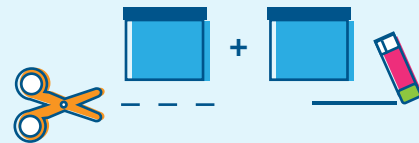

4. Turn the box around. Carefully press it onto the wrapping paper to smooth out any bumps.

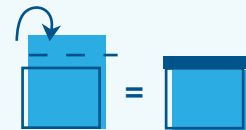

5. Repeat steps 3-4 for the long sides of the box.

6. Cut the sides of the short ends straight and glue them.

7. Fold the edges inside of the box.

8. Print One Big Bin label and glue it to your newly covered box.

Battery Box

Place old batteries here, not in the trash!

We recycle them for you. Call for pick-up from your door or drop them off at a participating grocery or home improvement store.

Visit OneBigBin.com for drop-off locations and pickup info.
